High Trails

High Trails is an integral part of the sixth-grade curriculum in Academy School District 20. It is a four-day/ three night outdoor education experience located in Florissant, Colorado.

Each D20 middle school is assigned 1 to 2 weeks to attend High Trails. Teachers and administrators from the middle schools accompany their students to camp. The High Trails Staff works collaboratively with D20 teachers to provide a rich experience.

At High Trails, students will study many phases of the middle-school curriculum: ecology, history, conservation, geology, astronomy, and nature crafts, as well as the responsible use of the outdoors for recreational purposes. Responsibility, self-reliance, leadership, and friendship also grow during the experience.

High Trails Outdoor Education = 6th Grade Colorado Academic Standards

In History:

Students understand the chronological organization of history and know how to organize events and people into major eras to identify and to explain historical relationships. Students understand that societies are diverse and have changed over time. Students understand how science, technology, and economic activities have developed, changed, and affected societies throughout history.

In Geography:

Students understand how physical processes shape the earth's surface patterns and systems.

In Life Science:

Students know and understand the characteristics and structure of living things, the processes of life, and how living things interact with each other and their environment.

In Earth and Space Science:

Students know and understand the processes and interactions of earth's systems and the structure and dynamics of the earth and other objects in space. Students know and understand inter-relationship among science, technology, and human activity and how they can affect the world.

Planning Ahead:

**Cost of High Trails
2019-2020
\$285 per student**

**For more information
contact your child's
future middle school.**
