The Expulsion Program (EP)

Academy District 20 provides an educational alternative, The Expulsion Program, to students during the time they are expelled.

Program Goals

The fundamental goals of EP are to provide:

- opportunities for academic growth and progress toward graduation by providing small group and individualized instruction,
- opportunities for students to obtain the skills for making appropriate behavioral and social choices, and
- transition support so students can successfully re-enter the middle or high school setting.

Open only to District 20 students. No fee. Students attend classes every other day for 7.5 hours per day. Each student may earn up to a maximum of five credits per semester. Coursework is determined by the intervention team consisting of the student, parent, school counselor, and EP teachers and Program Lead. The Expulsion Program is located at Academy District 20 Transportation Center on East Woodmen Road (7408 Duryea Road-Building B, Colorado Springs, CO 80920)
