

**Feeder Systems for Assigned School Attendance** - Once you enroll in a school, that school becomes your assigned school regardless of where you live and you forfeit any spot you previously held at any other District Twenty school.

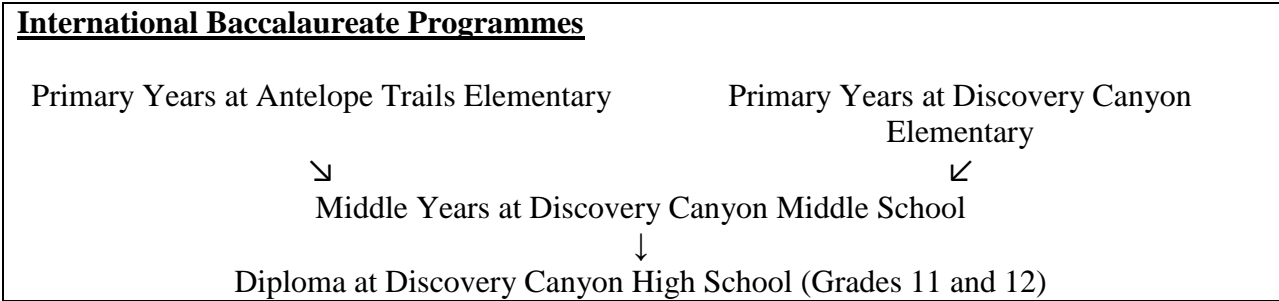

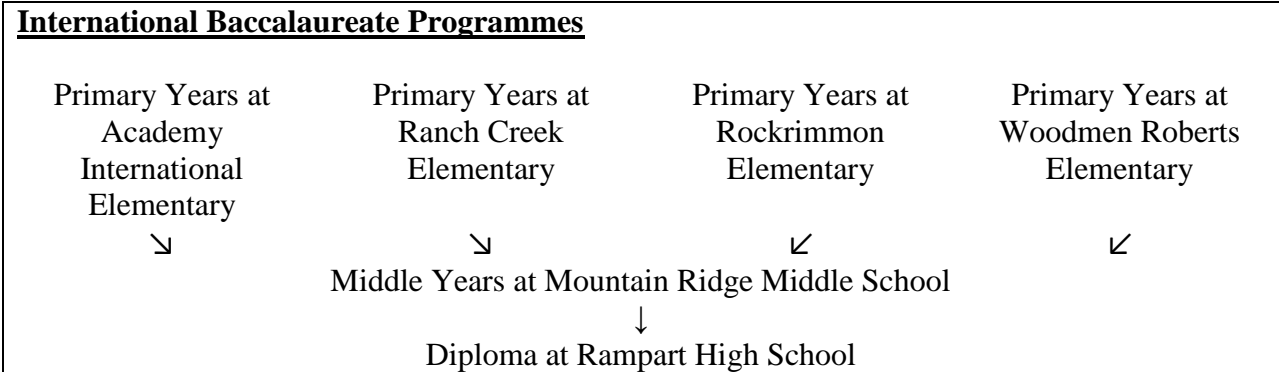

**Resident Students:** Once a resident student is assigned to a given school, then that student will attend the subsequent schools in the feeder strand (see the feeder strand diagrams below) until such time a choice application is submitted during a subsequent choice window and is approved.

**Non-Resident Students:** Non-resident students will remain at that school for the duration of that level (elementary, middle or high), unless the student’s enrollment is withdrawn (including expulsion). All non-resident students must submit a choice application during the choice window for the level transition (5th to 6th grade or 8th to 9th grade).

**Feeder Systems for IB Program Schools**

\* 5th grade students who reside in District 20 and attend Ranch Creek, Rockrimmon or Woodmen Roberts elementary schools may choose to attend middle years IB program at Mountain Ridge instead of their neighborhood middle school by contacting Central Registry (719) 234-1200 during the Choice Window in January/February.
